# STUDY ABROAD PROGRAMMES

**Bristol offers a highly flexible and personalised Study Abroad experience, with different programmes to suit your English language ability and a wide range of academic fields. All our programmes are available for a single semester or a full academic year.**

## Study Abroad (General pathway)

### September and January start

You can choose units from across the University to create a personalised academic programme. You can take units in your major and minor, as well as other subjects that interest you. Our six faculties offer a wide variety of subjects, which can be combined to create a diverse and intellectually stimulating programme.

## Study Abroad (Subject pathway)

### September and January start

You will be nominated by your home university to a department at Bristol which best matches your current degree programme. You will take the majority of your units in your host department, with the option to take a small number of credits in other academic areas of interest, including our Centre for Academic Language and Development.

## STABEL (Study Abroad with English Language)

### September start

For students who don't currently meet the English language requirements for the Study Abroad (General pathway) or Study Abroad (Subject pathway), STABEL combines Study Abroad with a pre-session English language course starting in June or July. This intensive course can last from six to ten weeks, depending on your current English language level, designed to help you reach the required level to progress onto the Study Abroad (General pathway) or Study Abroad (Subject pathway) programme in September. You must pass the pre-session course in order to progress.

The most common options for native English speakers, or those who already meet our English language requirements, are Study Abroad (General pathway) and Study Abroad (Subject pathway). If you already meet our English language requirements but want to enhance your English language skills for academic purposes, you can also take English language units alongside your other subjects.

If you are applying to Bristol as an exchange student, you can check with your home university or the Global Opportunities team at Bristol to find out which programme you have been nominated to. Direct-enrol students and independent applicants can select the most relevant pathway for their English language proficiency and subject preferences.

# CREATE YOUR PROGRAMME

**Make the most of your time here by creating a tailored academic programme that works for you.**

## Study level

Undergraduate degrees in the UK are three-year programmes, and as a Study Abroad student you can choose units (classes) from all three years. Occasionally, some departments open up master's level units for Study Abroad students. You can check the full list of available units for each department in our online study guides.

**[bristol.ac.uk/study-abroad-units](https://bristol.ac.uk/study-abroad-units)**

For subjects that are new to you or that you haven't studied in-depth at home, first-year units are the most suitable. Second-year units are the most common for students taking their major/minor abroad, and third-year units are suitable for students in their major subject if they are close to graduation.

## Credits and course load

You will take 60 Bristol credits per semester, which is a full course load. Most units at Bristol are worth either 10 credits or 20 credits, so you will typically take three to six units per semester.

Science and Engineering subjects tend to have more 10-credit units, whereas Arts, Humanities and Social Sciences tend to have 20-credit units. Your home university will be able to advise you on how the credits transfer back to your degree.

## Finding your units

Study Abroad (Subject pathway) students are required to take the majority of their units in the department to which they are nominated by their home university. Study Abroad (General pathway) students can take units across different faculties.

The terminology used at Bristol might not exactly match what you are used to at your home university. Please read the guidance on our website about how to choose your units.

# ACCOMMODATION

Our accommodation is a safe and supportive environment where you can be part of our vibrant student community.

### Your accommodation

Our University accommodation is grouped into three Student Residential Villages: North, East, and West.

We offer a range of self-catered and half-board accommodation. Our self-catered residences have kitchen facilities so you can cook your own meals, and our half-board residences have dining halls which provide two meals a day. All rooms are furnished, with either an en suite or a shared bathroom, and every residence provides free internet and 24-hour security.

You will be living with a mix of British undergraduates (usually first years), international students, and other Study Abroad students. We have accommodation options to suit everyone, including some designated flats for students with specific living requirements, such as single-sex and alcohol-free flats. Accommodation is also available for students with disabilities or health needs.

‘I have met new people through my University accommodation. Having new flat mates has allowed me to introduce myself.’

**Felipe**, Pontificia Universidad Católica de Chile

### Support in your accommodation

Our Residential Life Service offers a support network for students living in University accommodation. Each Student Residential Village has a Residential Life team, who are trained support staff. They are there to give you expert help, support and advice, 24 hours a day, seven days a week.

### Private rented accommodation

Private rented accommodation is best suited to students coming to Bristol for the full academic year, as most rental contracts are for a minimum of nine months. The University’s Accommodation Office can provide advice and guidance on finding private rented accommodation. Bristol SU also provides a specialist letting service for students, and there are many other property providers across the city.

### Social life and sports

Each University residence has a social committee run by students, which organises a range of social events, fun activities, and sporting leagues, for all abilities. Students living in University accommodation can also get fit for free through the fantastic B:Active Residences programme.

Find out more at [bristol.ac.uk/accommodation](https://bristol.ac.uk/accommodation)

### Study Abroad accommodation guarantee

- Direct enrol (non-exchange) students for September or January entry are guaranteed an offer of a place in University accommodation if you apply by the deadline.
- Exchange students from institutions outside of Europe are guaranteed an offer for September entry, if you apply by the deadline. We cannot guarantee an offer for January entry students, but we aim to place as many students as possible in a University residence or support you in finding private accommodation.
- Exchange students from our European partners are not guaranteed an offer for September or January entry but are still welcome to apply. If we cannot provide a place in a University residence we will support you in finding private accommodation.

### East Residential Village

The East Village residences are based in and around Bristol’s city centre. These residences are within walking distance of the University campus, and benefit from an endless supply of shops, cafés, and bars. Nearby is Bristol’s vibrant Harbourside, which hosts many festivals and events and is a popular area for nights out.

### West Residential Village

Our West Village residences are mostly based in the Clifton area – a popular and picturesque suburb of Bristol known for its traditional architecture, café culture and green spaces. Clifton offers a mixed selection of busy shopping and nightlife as well as quiet residential areas. These residences are mostly around 15 minutes’ walk from the main University campus.

### North Residential Village

Our North Village residences are based in the Stoke Bishop area – two miles from the main campus. The village includes gardens and space for socialising. It houses many half-board residences near to the sports complex. There is a dedicated bus service which links the North Village with the main campus and city centre. You are given a bus pass which is included as part of your accommodation fee.
